

TCP Standard Packaging Configuration

Standard CFL packaging configuration

Our CFL lamps are packed in two different configurations; 6 single lamps go into an outer box and depending on the product type either 8 or 12 outerboxes go into a master carton. This gives a configuration of either 48 or 72 lamps in a master carton.

CFL Master Carton with 72 Lamps

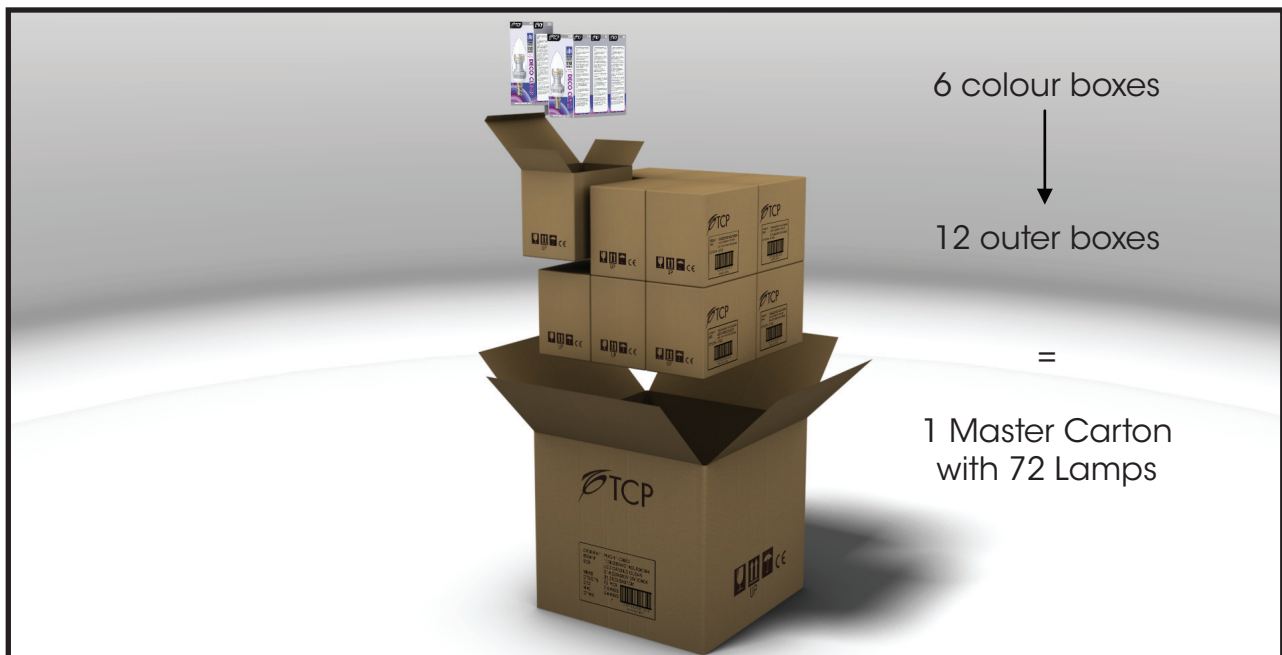

CFL Master Carton with 48 Lamps

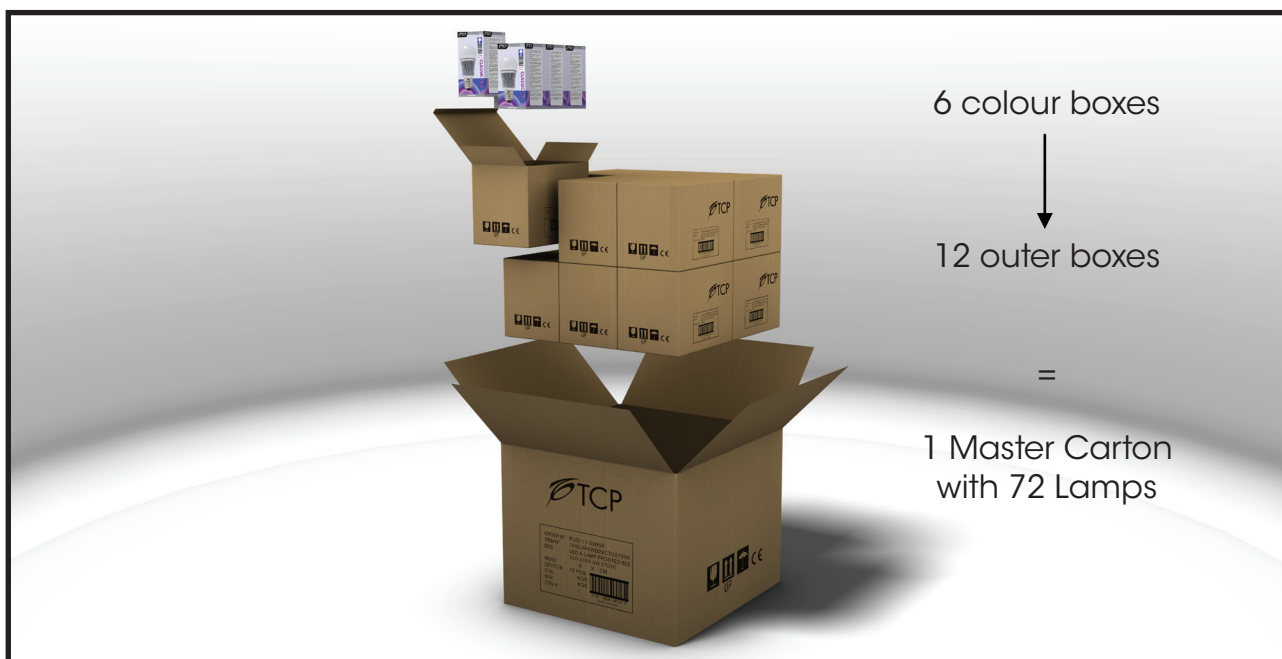

Standard LED packaging configuration

Our LED lamps have one packaging configuration;
6 single lamps are packed into an outer box and 12 outer boxes go in one
master carton.
